

HUMAN BUSTERS

Platform: iOS/Android

Genre: RPG

Introduction: In HUMAN BUSTERS you will have the opportunity to be a ghost haunting a house, just be careful and don't let anyone exorcise you.

Backstory:

After years living peacefully in the same house, Simon the Ghost has grown accustomed to his new routine. He happily haunts the house, scaring the neighbor's kids, playing with lights, and dropping things. However, some people come one day and start exorcising him! Now, he has to use all his ghostly abilities to scare off these intruders before they evaporate his soul. Will they run away before they end him?

Description:

You will be Simon the ghost trying to scare off the intruders. You will have to interact with objects all over the house, each of these interactions will increase the NPC's fear until they run off and you win. Some of your abilities will be shutting doors closed, turning on and off lights and TVs, throwing some objects, producing eerie sounds, and even temporarily possessing an NPC! Just be careful with your life energy. The intruders will try to exorcise you by stealing your energy, and every action has an energy cost. When your life energy reaches 0, you lose. Life energy will be hidden all over the house, you'll have to investigate to get it.

You will have multiple levels and maps and will be able to unlock new abilities and skins to be even scarier.

Key-features:

- Multiple levels, skins, and abilities to discover
- Find all the hidden energy to increase your power
- Live the haunted house from the point of view of the ghost

Competitors:

Ghostbusters (android), PuppetMaster 3D, Purrfect Spirits

This game is different from the rest in its original idea, goal and interactions with the environment.
